80%

of less experienced investors aged 18–40 have used AI for investment-related help.

UK Financial Conduct Authority (FCA), (2026)

More than half of young non-investors (aged 18–34) in European markets cite a lack of knowledge as a major barrier to investing.

BlackRock, People & Money Europe (2024)

AI-generated investment predictions can contain errors and require human oversight

Crisostomo and Mykhalyuk, Large Language Models and Stock Investing: Is the Human Factor Required? (2026)

Other AI tools give you answers. FinAI gives you the evidence.

Don't just click, think.

- Questions before answers
- Challenge your assumptions
- You make the call

Trust, but verify.

- Evidence-backed information
- Sources you can check
- Uncertainty, not made-up certainty

Learn beyond the app.

- Practise with real-world scenarios
- Understand risk and trade-offs
- Build skills for future decisions
